Dear staff:

Just to emphasize our Leadership Team Meeting discussion from Tuesday, all work in developing fence installation and signage for the proposed Dog Management Plan is on hold. As the review of the email incident is beginning, the park staff is not to conduct any planning or take project development actions regarding proposed Dog Management Plan implementation until further directed by the Superintendent. Keep in mind, none of the actions can be implemented until the ROD is signed. Please direct any inquiries from the public or outside stakeholders to Hale Sargeant.

Thank you,

Jim Milestone
Acting Deputy Superintendent
Golden Gate NRA
