Hi Laura I am just curious didn't you anticipate this kind of reaction? Todd asked me that question and I didn't have a good answer. Also he asked was the change from 4 to 3 dogs that significant to open this up at this time. I said you had data to support the change. What is your plan for this reaction? Can we chat later this week. Check with Angela to schedule a few mins for us to chat on Thursday or Friday this week I am out of office till Wednesday. Thanks

Stan Austin
Regional Director
National Park Service, Interior Regions 8, 9, 10, and 12

Subject: [EXTERNAL] 2019 Superintendent Compendium

Because there are extensive and improper changes to the Compendium, it must be withdrawn as it is an abuse of the compendium process. Dog walking should be managed under the 1979 Pet Policy. The Dog Management Plan was terminated and this is an illegal attempt to implement part of the DMP.

Commercial dog walking permits should be available in San Mateo County.

In addition, the three new definitions of "managed dog," "unmanaged dog," and "voice control" should be eliminated and returned to the 2017 wording.

Sincerely,

Nancy Stafford
